Field Name	Field Description
Position	The SAP eight-digit position code (perform a search for the correct position title) for the position to be maintained.
Valid from	Beginning date of the organizational assignment which identifies the start of a validity period. For existing Legacy positions, the start date was established as 01/01/1900. Note: The Validity period, also referred to as the effective date range, identifies the lifespan assigned to an object or an infotype record, or the period of time that these items "exist". Validity periods consist of a start date and end date.
Valid to	Contains a date that identifies the end of the validity period which is the ending date of the organizational assignment; if the assignment is ongoing, the "end of time" 12/31/9999 is entered.
Infotype status	Identifies whether the infotype is in planned or current status. Position infotypes will remain in planned status until all approvals have been obtained.
Work Flow Status	This field, automatically populated by SAP, displays the current status of a workflow item, such as "N" for in progress, "A" for has been approved by one or more approvers, "R" for rejected, and M for complete.
PCR Number	Stores the searchable, SAP generated ten-digit number used to designate a workflow item.
